PROFILE

I am a dedicated and hardworking deckhand currently looking for a new position. I have a positive attitude, enjoy being busy and I am ready to hit the ground running. I have plenty of experiences from my time working about the live-aboard MY Lady Marina. Coupled with this I have additional skills in photography and videography which may work well with a busy charter vessel. I am keen to progress my career and I am therefore looking to a yacht that can offer me longevity and the opportunity to continue my development. Currently I am working towards my Yachtmaster and Yacht Rating, of which I have many modules already signed off.
